

COMPASS

*enjoy the moment*

POOL  
COLLECTION

Our dealer's network covers all European countries and is one which we have created through careful selection and training. The majority have been with us since our first production in Europe. We are proud to have created a team which is able to deliver and install safe and quality pools all year round.

That beautiful moment, when you feel the water around you it is like being in a time machine traveling back to beautiful memories. Just close your eyes, the water, the people you are with, the smell, the mood, all of that can take you back to a moment in time like nothing else can.

*enjoy the moment*

# Our motivation

**„When we first experienced a Compass pool in Australia, it was like a bolt from the blue for both of us.“ Zoltán & Miro**  
Right at that moment this feeling became our mission and we bravely started to import pools from Australia to Europe. We decided that our customers will feel the same while using our pools, the same as we felt in Australia when we discovered Compass. Our mission developed gradually and in 2005 we opened the only exclusive factory for European market in Slovakia. We are consistently working to improve our production, but are proud to say that our product has satisfied the European customer standards for 15 years.

**Together with our team of people in Slovakia and our dealers in each European country we try to move the borders of traditional pool sale up to highly emotional experience.** Even if buying a pool is a big decision, it brings fun and joy, improves lifestyle of your family and last but not least, it gives your house or garden a brand new dimension.

Thank you for your trust  
and confidence in our product.

Zoltan Berghauer      Miroslav Ruziak      Tibor Meszaros

**1981 – 2020**  
79.500 POOLS SOLD WORLDWIDE

2016 WE ARE BACK - with the most modern factory in Europe

2019 We are gearing up as one of the leading pool manufacturer in Europe.

2005

17.7. 2005 /Slovakia  
Compass Europe  
factory was  
established.

2007

Development of cyber  
colors and new pool  
shape with remain  
stairs and flat bottom.

2008

Compass rollo cover  
was found and added  
to the accessories  
portfolio.

2009

Unique Compass Grancanaria  
conference with the best pool  
selling companies within EU.  
*What a great time we had  
together.*

2011

Dubai conference  
and becoming the EU  
pool producer leading  
company.  
We also developed a  
new color range NOVA.

2013

Compass carbon revolution,  
by adding this material to our  
pools we gave them stability  
and durability.

2014

Excellence in design  
for the first time in the  
pools category.  
After introducing the  
Yachtpool to the market,  
it immediately won the  
Red Dot and iF Design  
Awards.

2015

Fire in Compass Factory.  
Nothing is as sad as seeing the  
factory you have been improving  
for 10 years being totally  
destroyed by a fire.

2016

The new Compass Europe Factory  
opening ceremony.  
In 1 year we rebuilt, furnished  
and opened new production.  
We became the most modern and  
ECO friendly pool producer in the EU.

2017

We developed new pools  
and started a new line  
of AQUA NOVA and  
XL-LOUNGER.

2018

Danube conference, 170 people were  
sailing together on one ship for 4 days.  
In addition, we innovated the pool  
surface, added an integrated skimmer  
and a new pool into our portfolio.  
Compass Pools France was officially  
launched.

2019

We developed our first  
overflow pool with the  
integrated channel and  
the integrated skimmer  
for all of our pools.

2020

15th ANNIVERSARY  
OF COMPASS  
EUROPE

FUN 100 Nova Pearl  
Installation: Compass Pools Germany

A super-tough pool you know you can rely on

When Compass Pools introduced ceramic technology to the swimming pool industry in the mid 90's, it quickly became an accepted technology around the world. For decades now, we've been recognised as **world leaders and innovators in this market**. Our patented technology dramatically improves the pool's

structural integrity and is the reason why Compass Pools can offer all customers the confidence in a solution that will suit their specific needs.

The extensively exerted areas of the pool are structurally strengthened by the additional use of carbon in the patented Ceramic System. Carbon has the highest compressive strength of all reinforcement materials. 2018 was the year of innovative changes

for us. We focused mainly on the finished surfaces of the pools and tested these both in production and on finished pools. From 2019, the guarantee for each Compass pool has risen to 40 years for leak tightness, but customers can get an additional 15-year guarantee for the CosmoLine pool surface.

# Compass Factory

HOME OF THE CARBON CERAMIC POOL

The secret of success and durability of our pool is the composite composition, which includes a patented ceramic layer.

Since 2005 we have been producing Compass Pools in our EU factory with the average yearly production of 1.500 pools. Our team has bought many innovations to the production process as well as to the product itself, like adding the Carbon reinforcement to the material structure of our pool.

Thanks to this our factory is named "HOME OF THE CARBON CERAMIC POOL" and our pools are more stable and durable.

With our new factory (from 2016) we brought innovations to our production:

- the latest spray equipment of the new generation
- automatically controlled production environment (heating, cooling, humidity, vacuum)
- a regenerative thermo-oxidising device to significantly reduce emissions

"Our promise is to produce and deliver a pool so tough and reliable that we can offer our customers piece of mind and a 40 year structural guarantee."

Tibor Meszaros, Director Compass Europe s.r.o.

1.500 POOLS PRODUCED PER YEAR

THE NEWEST PRODUCTION TECHNOLOGY.

ALL POOLS UNDERGO A STRICT 10-STEP QUALITY CONTROL PROCESS

"We are proud to say that our newly opened factory, from June 2016, was designed to allow us to work in an eco-friendly manner and to give us more flexibility by fulfilling expectations of our customers. Our material suppliers are the best on the market and are carefully chosen from around the world. The majority of them have worked with us since we opened our factory in 2005. All of us are working together to deliver you a healthy, safe and high quality pool. *This is our story.*"

Zoltan Berghauer, CEO

# Your pool with a stunningly good look

Life is not black and white. Compass invented colours according to your great holiday memories. Design your own sea in your garden.

## NOVA® COLOURS

New types of colour chips and modernized primary colour mixtures are used! Aesthetically, its translucent holographic effect gives a distinguishing brilliance.

## BI-LUMINITE® & CYBER COLOURS

These colours change the look of composite pools thanks to small glittering particles just below the top-coat and the application of two paint layers instead of one.

### Features:

- 2 layers of special paint that are applied separately
- colour effect of the most beautiful sea lagoon you can only imagine
- coloured layers are applied manually as on the most expensive cars that's why every pool is an original

*colour your swim*

extraordinary match

TIMELESSNESS  
AND ORIGINALITY

## double-coloured pool *designed by you*

The main idea of our concept is to give architects and our customers a creative potential and possibility to not just have a perfect pool, but to match the exterior of their house with Compass pool. And to create something unique and completely original.

Despite the wide range of our creative solutions we have a team of designers for you, who are ready to help you to give a real look to your ideas. Just prepare a brief for us, discuss it with our dealer and send them with any questions to: [becreative@compasspools.eu](mailto:becreative@compasspools.eu).

Together we will have a look at how your ideas can work and you can enjoy your unusual surroundings, created by you, tailored to your needs.

Explore your home and choose its most distinctive visual element. It can be the colour of the facade or its interesting detail, which can be visually connected to your new pool.

*create your unique look*

A MOMENT WHERE LIFE  
AND LOVE HAVE NO BOARDERS

—  
**compass**  
*selection*

**We build houses and start families. We sail yachts.  
We are active and do all kinds of sports.**

We've achieved one goal and the next one is already waiting for us.  
Can we just stop for a while?

No, we can't. Neither do we want to. We always want to achieve  
the best. For us something is good enough only when we've made  
it even better. Why? Because we are showing passion. We enjoy  
creating the moments full of excitement from everyday life.

**The new Compass Selection concept. Symbol of your lifestyle.**

# self-cleaning pool VANTAGE

**Just imagine a pool which cleans itself, saves money and uses less chemicals**

VANTAGE system is number one in the world among circulation and cleaning systems and it is much more efficient than any pool vacuum cleaner. It provides efficient and high-performance cleaning from the surface to the bottom of the pool.

Its patented telescopic nozzle „Pop-up“ is able to cover a four times larger area than small devices and therefore it copes even with larger pieces of debris. The system is completely automated and silent. It works even when you are enjoying your pool.

**No time to look after your pool? We bring simple and effective solution.**

**Benefits of Vantage system:**

- you get the top self-cleaning pool
- water circulation eliminates growth of algae and bacteria
- reduces the usage of chemicals

**No need for regular hand vacuuming or any other cleaning equipment.  
You only will enjoy the pool and spend time with your family.**

# Rollo Cover

The Compass Pools Rollo Cover is a high quality product designed to perfectly fit our pools and made of only high-end raw material and sub-assemblies.

Our automatic swimming pool covers are thermally efficient and restrict energy losses to a minimum. In addition, your swimming pool stays cleaner and chlorine degradation by UV is reduced which decreases maintenance costs. Cover can bear the weight of a small pet, child or even an adult.

For maximum compass safety, an integrated perimeter guiding ledge prevents submersion of the slats when weighed down.

Here are your benefits:

- guarantees maximum energy efficiency and full safety
- ensure optimal warming of swimming pool water by 4 to 8 °C
- evaporation and heat loss are limited

Slats overview

# rollo cover – above the ground

This solution is for those customers, who have bought a pool without the ability to have an integrated Compass Rollo Cover or simply want to use the entire pool area for water fun and don't mind installing a cover above the ground. This solution also delivers the highest quality and durability. Moreover, it is also suitable for existing swimming pools.

The winding device at the end of the pool automatically winds the slats up and down. For an overall visual impression, the entire machine can be lined with wood to match the design of the garden and swimming pool.

## EcoTop – basic

The brackets of this variant are made of aluminium and painted white. The winding shaft is made of aluminium and the built-in tubular motor has automatic limit switches. The key switch is located directly on the console. Therefore, it is not possible to cover the winding device. Optionally, you can choose the EcoTop cover with solar drive.

## AquaTop – bestseller

The winding device of this variant is made of AISI 316L stainless steel. A 24 V electric motor is installed in one of its two consoles. The control and key switch are separately integrated directly in the pool technology. This advantage actually allows the winding device to be fully covered.

## TopMoov – mobile cover with style

It is always a challenge to find a cover for an existing pool to preserve the design and character of created pool area. TopMoov is your optimal solution. It looks elegant and can be moved a few meters by fine rails, so it bears the attribute "mobile". This variant of „above the ground“ covers is always equipped with a solar drive.
