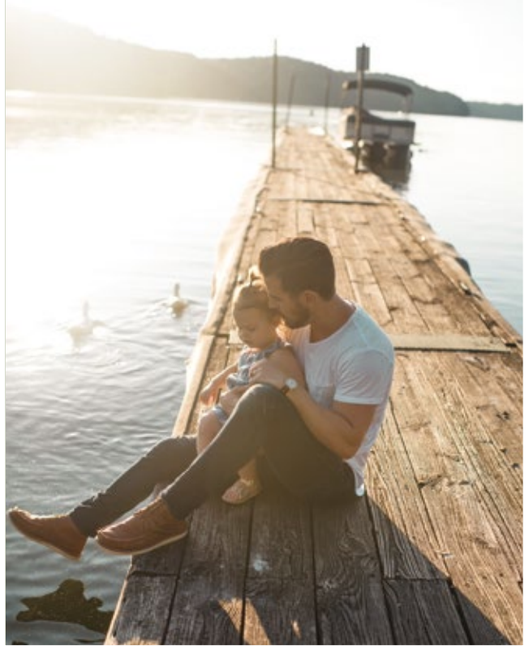
POOL COLLECTION 2019

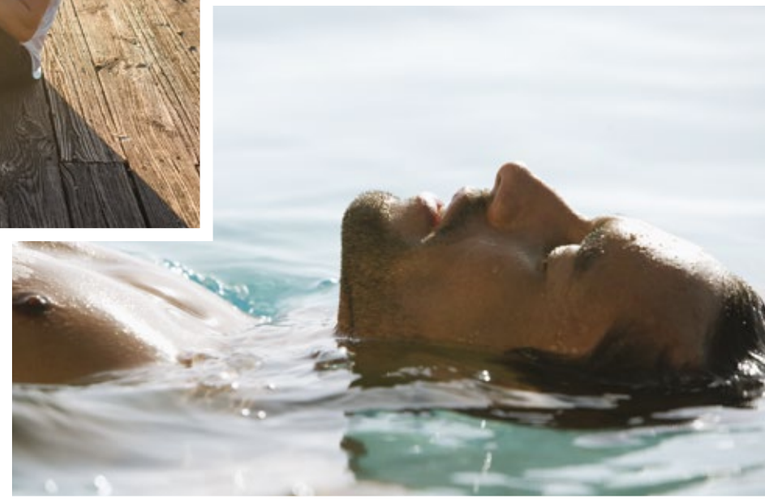
COMPASS

enjoy the moment

30 territorial representatives
36 european countries

Our dealer network covers the whole of Europe and is one which we have created through careful selection and training. The majority have been with us since our first production in Europe. We are proud to have created a team which is able to deliver and install safe and quality pools all year round.





That beautiful moment, when you feel the water around you it is like being in a time machine traveling back to beautiful memories. Just close your eyes, the water, the people you are with, the smell, the mood, all of that can take you back to a moment in time like nothing else can.

enjoy the moment

Our motivation

When we first experienced a Compass pool in Australia, it was like a bolt from the blue for both of us.

Right at that moment this feeling became our mission and we bravely started to import pools from Australia to Europe. We decided that our customers will feel the same while using our pools, the same as we felt in Australia when we discovered Compass. Our mission developed gradually and in 2005 we opened the only exclusive factory for European market in Slovakia. We are consistently working to improve our production, but are proud to say that our product has satisfied the European customer standards for 14 years.

Founders of Compass Europe: Zoltan Berghauer and Miro Ruziak

Together with our team of people in Slovakia and our dealers in each European Union country we try to move the borders of traditional pool sale up to highly emotional experience. Even if buying a pool is a big decision, it brings fun and joy, improves lifestyle of your family and last but not least, it gives your house or garden a brand new dimension.

Thank you for your trust and confidence in our product.

CONTACTS 57

1981 – 2019
78.000 POOLS SOLD WORLDWIDE

2016 **Compass Europe opened a newly rebuilt factory.**

2017 **We are gearing up as one of the leading pool manufacturer in Europe.**

2005 **17.7. 2005 / Slovakia**
Compass Europe factory was established.

2007 **Development of cyber colors** and new pool shape with romain stairs and flat bottom.

2008 **Compass rollo cover** was found and added to the accessories portfolio.

2009 **Unique Compass Grancanaria conference** with the best pool selling companies within EU. *What a great time we had together.*

2011 **Dubai conference** and becoming the EU pool producer leading company. We also developed a new color range NOVA.

2013 **Compass carbon revolution,** by adding this material to our pools we gave them stability and durability.

2014 **Excellence in design** for the first time in the pools category. After introducing the Yachtpool to the market, it immediately won the Red Dot and iF Design Awards.

2015 **Fire in Compass Factory.**
Nothing is as sad as seeing the factory you have been improving for 10 years being totally destroyed by a fire.

2016 **The new Compass Europe Factory opening ceremony.**
In 1 year we rebuilt, furnished and opened new production. We became the most modern and ECO friendly pool producer in the EU.

2017 **We developed new pools** and started a new line of AQUA NOVA and XL-LOUNGER.

2018 **Danube conference,** 170 people were sailing together on one ship for 4 days.
In adition, we innovated the pool surface, added an integrated skimmer and a new pool into our portfolio. Compass Pools France was officially launched.

2019

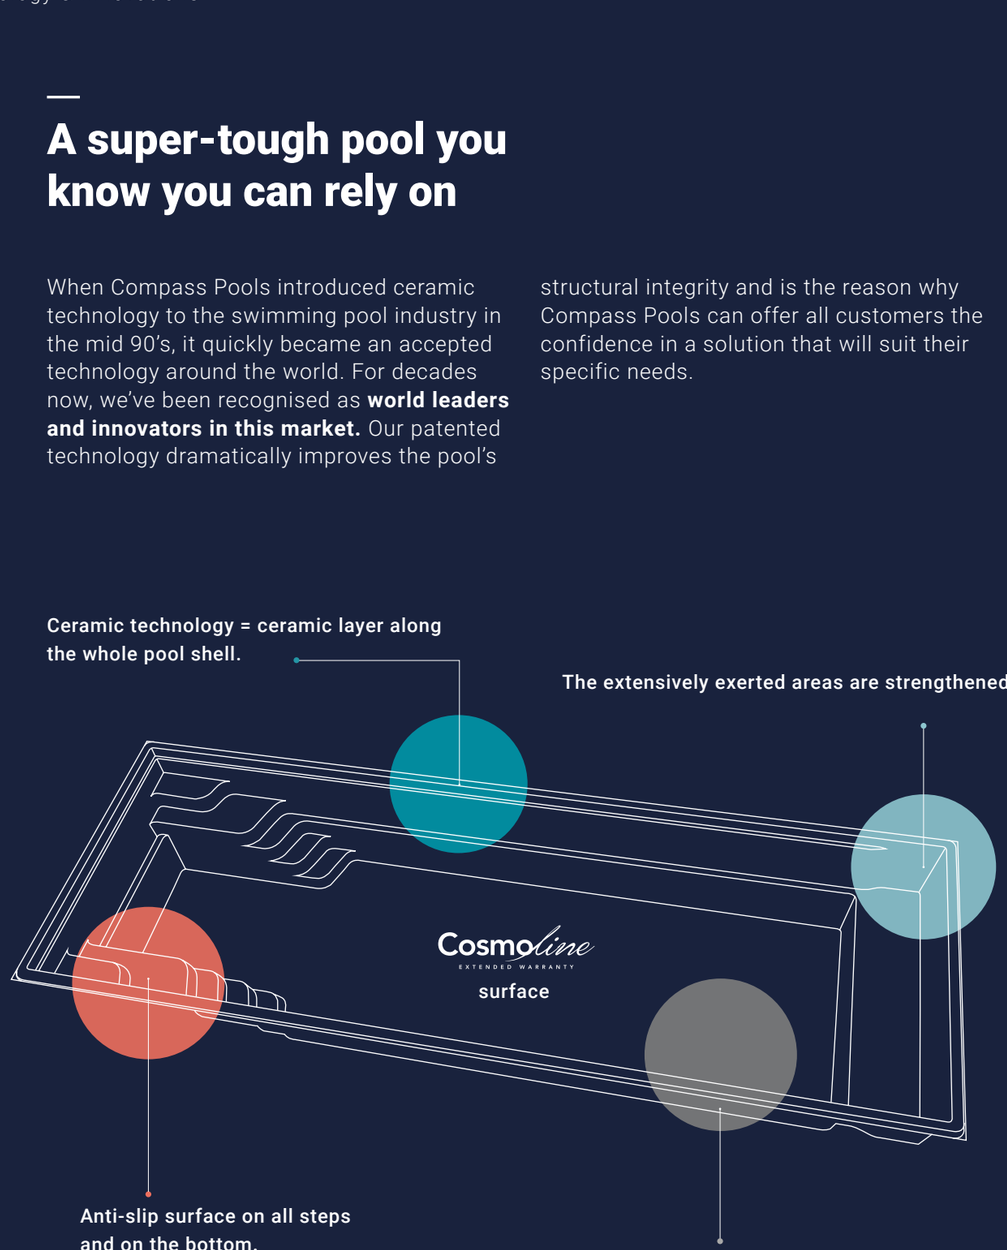
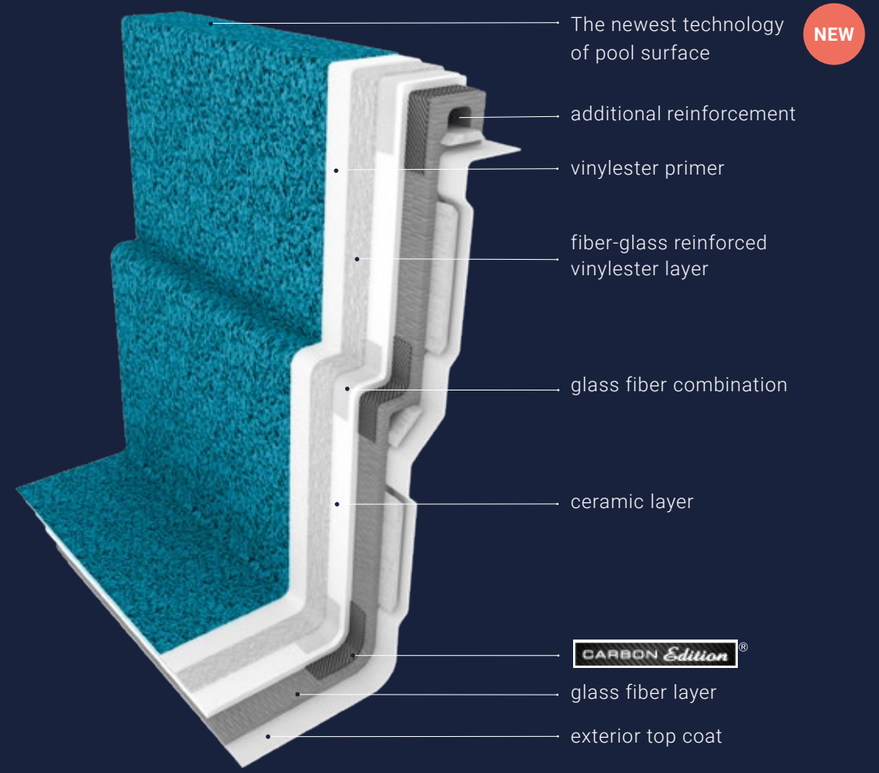
technology & innovations

A super-tough pool you know you can rely on

When Compass Pools introduced ceramic technology to the swimming pool industry in the mid 90's, it quickly became an accepted technology around the world. For decades now, we've been recognised as **world leaders and innovators in this market.** Our patented technology dramatically improves the pool's structural integrity and is the reason why Compass Pools can offer all customers the confidence in a solution that will suit their specific needs.

The extensively exerted areas of the pool are structurally strengthened by the additional use of carbon in the patented Ceramic System.
Carbon has the highest compressive strength of all reinforcement materials.
2018 was the year of innovative changes for us. We focused mainly on the finished surfaces of the pools and tested these both in production and on finished pools. From 2019, the guarantee for each Compass pool has risen to 40 years for leak tightness, but customers can get an additional 15-year guarantee for the CosmoLine pool surface.





Compass Factory

HOME OF THE CARBON CERAMIC POOL

The secret to the success and durability of a Compass Pool is in its patented ceramic design.

Since 2005 we have been producing Compass Pools in our EU factory with the average yearly production of 1.200 pools. Our team has bought many innovations to the production process as well as to the product itself, like adding the Carbon reinforcement to the material structure of our pool.

Thanks to this our factory is named “HOME OF THE CARBON CERAMIC POOL” and our pools are more stable and durable.

With our new factory (from 2016) we brought innovations to our production:

- most advanced spraying guns
- patented Air Exchange Technology
- significant reduction of waste emissions

“Our promise is to produce and deliver a pool so tough and reliable that we can offer our customers piece of mind and a 40 year structural guarantee.”

Tibor Meszaros, Director Compass Europe s.r.o.

1.300 POOLS PRODUCED PER YEAR

THE NEWEST PRODUCTION TECHNOLOGY.

ALL POOLS UNDERGO A STRICT 10-STEP QUALITY CONTROL PROCESS

—

"We are proud to say that our newly opened factory, from June 2016, was designed to allow us to work in an eco-friendly manner and to give us more flexibility by fulfilling expectations of our customers. Our material suppliers are the best on the market and are carefully chosen from around the world. The majority of them have worked with us since we opened our factory in 2005. All of us are working together to deliver you a healthy, safe and high quality pool. *This is our story."*

Zoltan Berghauer, CEO

Your pool with a stunningly good look

Life is not black and white. Compass invented colours according to your great holiday memories. Design your own sea in your garden.

NOVA® COLOURS

New types of colour chips and modernized primary colour mixtures are used! Aesthetically, its translucent holographic effect gives a distinguishing brilliance.

BI-LUMINITE® & CYBER COLOURS

These colours change the look of composite pools thanks to small glittering particles just below the top-coat and the application of two paint layers instead of one.

Features:

- **2 layers of special paint that are applied separately**
- **colour effect of the most beautiful sea lagoon you can only imagine**
- **coloured layers are applied manually as on the most expensive cars that's why every pool is an original**

TIMELESSNESS
AND ORIGINALITY

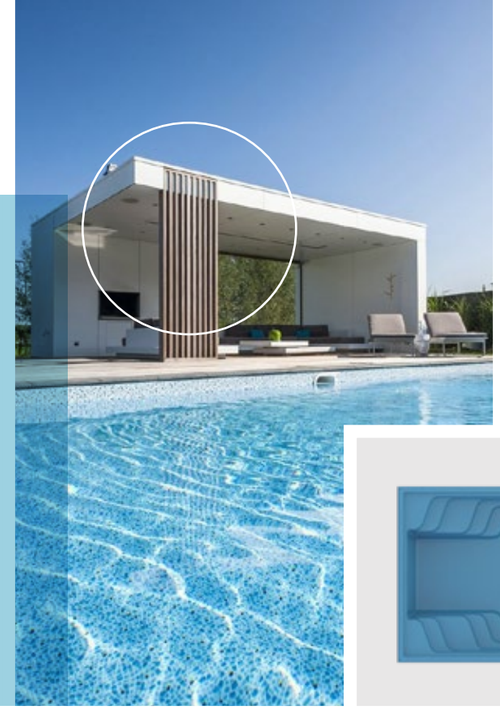
double-coloured pool
designed by you

The main idea of our concept is to give architects and our customers a creative potential and possibility to not just have a perfect pool, but to match the exterior of their house with Compass pool. And to create something unique and completely original.

Despite the wide range of our creative solutions we have a team of designers for you, who are ready to help you to give a real look to your ideas. Just prepare a brief for us, discuss it with our dealer and send them with any questions to: becreative@compasspools.eu.

Together we will have a look at how your ideas can work and you can enjoy your unusual surroundings, created by you, tailored to your needs.

CREATE UNIQUE VISUAL ENTITY



Explore your home and choose its most distinctive visual element. It can be the colour of the facade or its interesting detail, which can be visually connected to your new pool.

A MOMENT WHERE LIFE
AND LOVE HAVE NO BOARDERS

—

compass *selection*

We build houses and start families. We sail yachts.
We are active and do all kinds of sports.

We've achieved one goal and the next one is already waiting for us. Can we just stop for a while?

No, we can't. Neither do we want to. We always want to achieve the best. For us something is good enough only when we've made it even better. Why? Because we are showing passion. We enjoy creating the moments full of excitement from everyday life.

The new Compass Selection concept. Symbol of your lifestyle.

self-cleaning pool
VANTAGE

Just imagine a pool which cleans itself, saves money and uses less chemicals

VANTAGE system is number one in the world among circulation and cleaning systems and it is much more efficient than any pool vacuum cleaner. It provides efficient and high-performance cleaning from the surface to the bottom of the pool.

Its patented telescopic nozzle „Pop-up" is able to cover a four times larger area than small devices and therefore it copes even with larger pieces of debris. The system is completely automated and silent. It works even when you are enjoying your pool.

No time to look after your pool? We bring simple and effective solution.

Benefits of Vantage system:

- you get the top self-cleaning pool
- water circulation eliminates growth of algae and bacteria
- reduces the usage of chemicals

No need for regular hand vacuuming or any other cleaning equipment.
You only will enjoy the pool and spend time with your family.

rollo cover

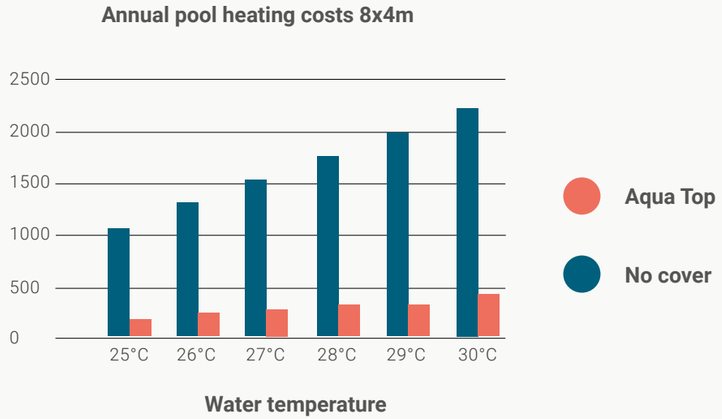
The Compass Pools Rollo Cover is a high quality product designed to perfectly fit our pools and made of only high-end raw material and sub-assemblies.

Our automatic swimming pool covers are thermally efficient and restrict energy losses to a minimum. In addition, your swimming pool stays cleaner and chlorine degradation by UV is reduced which decreases maintenance costs. Cover can bear the weight of a small pet, child or even an adult.

For maximum compass safety, an integrated perimeter guiding ledge prevents submersion of the slats when weighed down.

Here are your benefits:

- guarantees maximum energy efficiency and full safety
- ensure optimal warming of swimming pool water by 4 to 8 °C
- evaporation and heat loss are limited



ENERGY EFFICIENCY AND FULL SAFETY

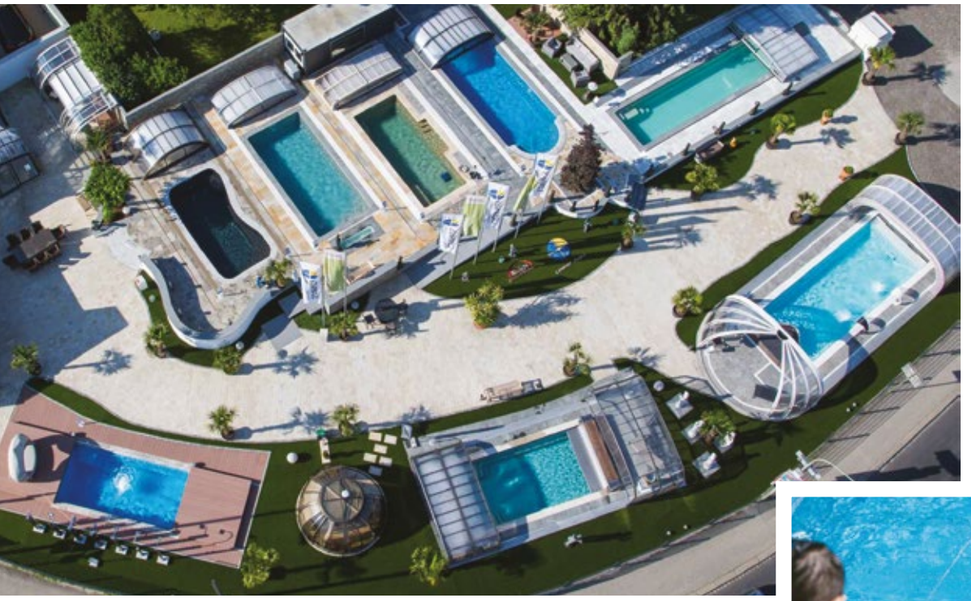
You can find them all at www.compasspools.eu



BRATISLAVA, SLOVENSKO SHOWROOM

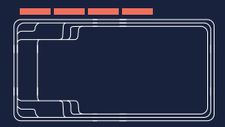
…and don’t forget your swimsuit!

Our Highlights for 2019

NEW

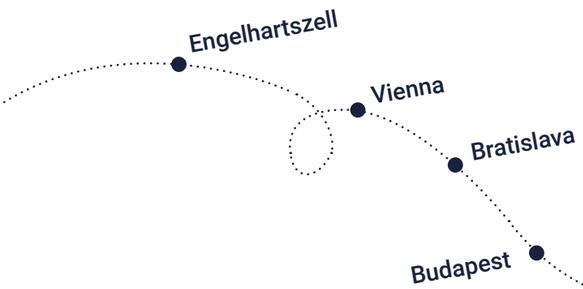
HIGH-LEVEL-SKIMMER – OPTIONAL
Laminated skimmer for maximum height of the water level in a pool. Our newest innovation.

TURBINE CURRENT
Turbines generate a wide, regular and powerful current. How strong it should be, you regulate yourself. Train and take on new energy while the current drifts you - this is the wellness for the soul.



COPING STONES
Beauty lies in detail. That is why we have chosen coping stones to our pools from a Greek factory . Quality material, exceptional design and a safe surface that you will not slip even when wet. In our offer you can find stones that correspond to most climates: Kavala, Sunny, California, Granite. Just to be nicely combined with the color of your pool.

POOL CONTROLS CHLORINATOR
The latest innovation from Pool Controls in Australia is working at an extra low salt concentration of 900 ppm. At this concentration, the salt is almost impossible to recognize by taste, so it is as if you were swimming in clean fresh water. Looking at it from a perspective, for example, seawater has a salt concentration of approx. 30,000 ppm. Ordinary salt chlorinators work at a salt concentration of between 3,000 ppm and 6,000 ppm. XLS 900 works efficiently at 900 ppm. Do not believe? We will lend it to you for testing.



Compass Danube Cruise
7.11. - 12.11.2018

Compass Europe

is positioned as one of the leading international pool producers.

Looking back at 2018 season shows us several important milestones. It was a significant year in which we successfully managed to consolidate our strong position on the market but also managed to come up with several innovations for our product.

We were working with the Australian professionals on the development of new surface for our pools, we have brought in integrated skimmer for maximum highest water level, and we have another new pool in our portfolio which is a connection of several integrated parts – the technical room and the skimmer.

The most important moment happened in November, when we hosted all our dealers and importers from the whole Europe, Israel, Australia and the USA. We hired A-ROSA ship and boarded 170 people for the cruise on the river Danube full of unforgettable moments. Almost 5 days on the Danube with amazing programme and stops in 5 towns. This is how we confirmed our tradition of extraordinary conferences which are mostly about sharing experience between our dealers from different territories. Compass Europe demonstrated its size and international extent. But our Compass Family would never have been so successful and efficient if it wasn´t composed of professionals and experienced sellers with big hearts. Thanks to their honest mirror, feedback and, last but not least, to their successful representation of the brand Compass, we wouldn´t have enough energy for continuous improvement and production.
